Raising awareness and improving practice.

"Completing this course gave me the confidence and momentum to take a massive leap - it truly enabled and pushed me to sign up for my Master's degree, which I proudly started back in January!

Protecting children and young people requires continuous learning, and I'm so glad this training served as the perfect springboard for my current postgraduate studies.

"In rebuilding my life, I provide support to others experiencing difficulties and challenges. I listen and I bring care and kindness which wasn't brought to me." Affected Parent

"Within time I attended a Parents Participation workshop with my husband, and for the first time in a long time, we didn't feel alone, hiding from the shame and blame and stigma that comes with being a parent of a sexually exploited child. I also needed to rebuild myself. I was given the opportunity to be a guest speaker and speak at Ivison Trust events." Affected Parent
